

# B.Tech Academic Regulations & Examination System

## 1. Introduction

These academic regulations govern the Bachelor of Technology (B.Tech) programs of the institution. They ensure academic discipline, transparency in evaluation, and uniform standards of learning.

## 2. Program Duration & Structure

The B.Tech program duration is four academic years divided into eight semesters.

Each academic year consists of an Odd Semester (July–November) and an Even Semester (January–May).

## 3. Credit System

The program follows a credit-based system. One credit corresponds to one hour of theory per week or two hours of lab per week.

Students must earn all prescribed credits to be eligible for graduation.

## 4. Attendance Requirements

A minimum of 75% attendance is mandatory in each subject.

Students with attendance between 65% and 74% may be condoned upon payment of a fee.

Students with attendance below 65% are not eligible to appear for examinations.

## 5. Promotion & Examination Rules

Students are promoted semester-wise and may carry a maximum of two backlogs.

Promotion to the final year requires completion of at least 70% of total credits.
